

I have enclosed a copy of my journal; the original is in a safety deposit box with all the other documentation. (See attached disc). I never intended for anyone to see it. I set up a video camera in the bedroom because I was sure you would kill me. I never intended for anyone to know about any of this, evidence by the fact that I kept the secret for years.

Look at the photos of me in the ER. You ran away and left me there. I was all alone. It has always been about you. I do not believe you can change. I never want to see you again. I do not want you to be Gracie's father. I do love you, but I am done being a punching bag, physically and emotionally.

Do not call me, text me or email me. If you need to talk to me, do it through a third person.

I wish you the best a hope that we will finalize everything in a civil manner.

Mekisha Jane
